

Arnot Health

Arnot Ogden Medical Center
School of Nursing

The Arnot Ogden Medical Center School of Nursing is a three-year academic program leading to a Diploma in Nursing.

Basic requirements needed to apply:

- ❑ Meet high school/college academic requirements – **including mandatory Chemistry and Algebra course requirement** as stated on page 9.
- ❑ **Successfully complete the ATI TEAS** (Test of Essential Academic Skills) examination. Test registration, payment & test date scheduling: www.atitesting.com. Online-testing is completed at the School of Nursing for our applicants. All scores will be submitted to the Arnot Ogden School of Nursing after completion of the test. **Refer to page 34 for more information about TEAS exam registration**

What forms are required to be submitted in my completed application packet?

A complete application packet should contain:

- ❑ Completed and signed application form with the \$50.00 application fee
- ❑ A résumé and brief essay as outlined on the back of the application form
- ❑ Two completed reference forms - included in this catalog
 - The school will consider only reference forms in **sealed envelopes with the reference signature over the seal**. The references must be provided by people who are **not** relatives or friends of the applicant and who have experience with the candidate's personal, scholastic and/or professional capabilities.
- ❑ **Official** high school transcript – contact your high school to request an **official/sealed** copy be mailed to you to submit in your application packet. **All** applicants must submit an **official** high school transcript(s) regardless of graduation year.
- ❑ **If applicable, Official** college transcript(s) - contact each college to request that an **official/sealed** transcript be mailed to you to submit in your application packet
- ❑ A **preliminary official** transcript should show courses in progress
- ❑ **If applicable**, submit a copy of GED scores **and** an **official** high school transcript indicating the withdrawal date and indicating successful **completion** of the required Chemistry and Algebra courses
- ❑ **Practical Nurse (PN) Applicants** are also required to submit an **official/sealed** transcript from their PN nursing school

All documents, transcripts, and TEAS results must be received by the May 15th application deadline date to be considered for a September admission date.

Mail the completed application packet to:

Arnot Ogden Medical Center
School of Nursing
600 Roe Ave.
Elmira, NY 14905

Application checks are to be made payable to the Arnot Ogden School of Nursing

The information contained within this catalog is informational only and not intended to be contractual in nature.

ESSENTIAL FUNCTIONS

The Arnot Ogden School of Nursing is an equal opportunity institution. The School of Nursing does not discriminate regarding applicants and/or students on the basis of age, race, color, sex, sexual preference, creed, marital status, national or ethnic origin, or handicapping conditions in the administration of the admission policies, education policies, scholarship and loan programs or other school-administered programs and services.

The Arnot Ogden School of Nursing is located on the campus of the Arnot Ogden Medical Center, which is designed to accommodate the needs of the handicapped individual. The School of Nursing provides handicapped parking, ramps, and access to restroom facilities. Prospective students with physical limitations are encouraged to tour the school and discuss with their family physician to determine their ability to successfully complete the program requirements. Additional information and tours can be arranged by calling the school.

Listed below are the Essential Functions of a Student Nurse at Arnot Ogden Medical Center School of Nursing. Applicants need to be aware of the Essential Functions prior to attendance. They will enable you to be able to function in a safe manner. It is the student's responsibility to notify the School of Nursing of any disability impacting on his or her ability to perform the essential functions prior to entering Arnot Ogden Medical Center School of Nursing. Arnot Ogden Medical Center School of Nursing will provide reasonable accommodations to a qualified individual with a disability. It is the responsibility of the applicant or student to request the accommodations that are needed to perform the essential functions. To be eligible for a reasonable accommodation, applications must provide clear documentation of disability.

Essential Function Performance Requirements

Ability to use senses

Visual acuity with corrective lenses to identify color changes in skin, respiratory movement in patients; read fine print/writing on physicians orders, monitors, equipment calibrations, measure medications in syringes, IV's, etc. Hearing ability with auditory aids to hear monitor alarms, emergency signals, call bells, telephone orders; to hear blood pressure, heart, lung and abdominal sounds with a stethoscope; to understand a normal speaking voice without viewing the speaker's face. Tactile ability to feel differences in skin temperature and to perform physical assessment.

Motor Ability

Physical ability to walk long distances, to stand for prolonged periods, to lift, move, and transfer patients/equipment of 20 lbs. or more, to maneuver in limited space, to perform CPR, to provide routine and emergency care, to have manual dexterity and feeling ability of hands to insert tubes, prepare medications, and perform technical skills.

Ability to Communicate

Ability to communicate effectively in English in verbal and written form through interaction with patients, family, and healthcare members from a variety of social, emotional, cultural, and intellectual backgrounds; to write clearly and correctly on patient's record for legal documentation.

Ability to Problem-Solve

Intellectual and conceptual ability to think critically in order to make decisions, which includes measuring, calculating, reasoning, analyzing, prioritizing and synthesizing data.

Ability to Maintain Emotional Stability

Ability to function safely under stress and adapt to changing clinical and patient situations.

School of Nursing

Frequently asked questions:

- *How long is the program?*
The Arnot Ogden School of Nursing program is 3 years.
 - *What type of nursing program – RN or LPN?*
We are a hospital-based RN diploma program.
 - *When do the classes start? Is there a January admission date?*
Admissions are only in September of each year, there are no January admissions.
 - *When is the application packet deadline?*
Application deadline is May 15th of each year.
 - *What is needed to qualify as a “complete application packet”?*
 - A complete and signed application form
 - \$50 non-refundable application fee
 - resume’ and essay
 - 2 reference letters using the enclosed reference forms
 - official high school transcript and/or GED certificate. If a GED certificate is submitted, an official high school transcript including all completed grades is also required
 - official transcripts from all colleges attended
- ❖ **All the documents should be received in one envelope prior to the May 15th application deadline.**
- ❖ **The pre-entrance test (ATI TEAS) must also be completed prior to the May 15th deadline date for committee review. The ATI TEAS may be completed before submitting your application packet.**
- *What basic courses do I need to apply to the program?*
High school applicants must have biology, chemistry and algebra. If the courses were not completed in high school, you should submit an official college transcript indicating successful completion of chemistry and algebra (grade of C or higher). The biology will be waived for post-high school applicants.
 - *If I have been out of high school for awhile, it is really necessary to submit my high school transcript?*
Yes, all applicants must submit an official copy of their high school grades to be considered for admission.
 - *How often are application packets reviewed?*
During the school year, the Recruitment Committee meets on a monthly basis and reviews completed application packets and pre-entrance test results at each meeting.
 - *What type of pre-entrance test is offered?*
The School of Nursing uses the ATI TEAS (Test of Essential Academic Skills) pre-entrance test. **Registration and payment is submitted directly to ATI by the applicant prior to completing the exam at the School of Nursing.**
 - *How often is the pre-entrance test offered? What is the cost?*
 - Test dates are available on the ATI website www.atitesting.com
 - We typically test one day of each calendar month.
 - The exam is approximately \$60.00 and payment is made to ATI upon registration

Arnot Health

Arnot Ogden Medical Center
School of Nursing

Frequently asked questions continued

- *How can I prepare for the TEAS exam?*
We strongly encourage applicants to use the study manual to prepare for the exam. Study manuals may be purchased on the ATI website.
- *If I fail the pre-entrance exam, may I retake it?*
If the first attempt at the test is unsuccessful, applicants **may repeat** the ATI TEAS exam **one time**. **Remediation and review is strongly recommended before you repeat the exam.**
- *Will my college credits transfer?*
You may be eligible for course exemptions. However, exemptions can not be determined until the Recruitment Committee reviews the application packet and all *official* college transcripts. Science courses over 10 years will not be considered for exemption.
- *How long after I apply will I know if I am accepted?*
-The process usually takes about 1-2 months.
-The ATI TEAS exam must be successfully completed before your application is reviewed.
- *Is there a part-time option?*
The nursing program is a full time 3 year program
- *If I am already an LPN, how long will it take me to complete the program?*
PN/LPN applicants should plan to complete the 3 year program. PN/LPN applicants will be exempt from Nutrition. An additional nursing course exemption will be based upon experience. All course exemptions are determined by the Recruitment Committee.
- *After completing the program, can I work anywhere?*
Yes! After graduation and successfully completing the NCLEX-RN exam, you may work anywhere in the United States!
- *How does this diploma program differ from a degree program?*
We admit a small group (25 or less) of highly qualified students each September. Students are provided several direct patient hands-on hours of clinical experience with a Masters prepared faculty. The clinical experience coincides directly with the classroom theory hours.
- *Do we have a "tuition-waiver" program?*
No, unfortunately we no longer have a tuition-waiver program (i.e. work hours for school hours post graduation)
- *Is there financial aid available?*
Yes, a financial aid counselor is available with the Arnot Ogden Medical Center. The office is located in the Health Center for Women/Accounting Dept.

HISTORY

A CENTURY OF CARING

The year was 1864 and the nation was embroiled in a bitter Civil War. Physicians laboring in Elmira's prisoner-of-war camp recognized a pressing need for a community hospital, and determined to found such an institution for the people of the region. Shortly thereafter, in 1875, Marianna Arnot, a patient of one of the physicians and eldest daughter of John Arnot, pioneer Elmira merchant and banker, married William Butler Ogden. Mr. Ogden had achieved wealth and prominence as a national figure—as the first mayor of Chicago and first president of the Union Pacific railroad. But just two years after the marriage he died, and Mrs. Ogden decided to fund construction of Elmira's first hospital as a tribute to her late husband.

On December 20, 1888, Arnot Ogden Memorial Hospital opened its doors with 25 beds and a staff of seven physicians, three nurses, a matron and four other employees.

Early during the hospital's very first year of service, the Board of Managers initiated a search for additional qualified nurses to meet a growing demand for care. Recruiting efforts failed in the United States, but by spring of 1889, the Board located two new nurses willing to move to Elmira from Canada.

A decision followed to start a program to educate professional nurses in Elmira. On September 1, 1889, the Arnot Ogden Memorial Hospital Training School of Nurses welcomed a freshman class of three. Since that time, the School of Nursing has educated more than 2,400 professional nurses whose skills, talents and expertise Arnot Ogden Hospital administration acknowledges and traditionally seeks to employ. Our graduates are highly employable in other states and settings due to their strong clinical expertise. The Arnot Ogden School of Nursing continues to prepare nurses for the new millennium.

Today, Arnot Ogden Medical Center is a regional medical center serving the people of southern New York and northern Pennsylvania. At Arnot Ogden Medical Center, patients and physicians find a range of specialty services and technical sophistication normally associated with urban medical centers. These services include referral centers for perinatology and neonatology, for cardiac surgery and advanced cardiology services, emergency and trauma care, hemodialysis, chemo-and radiation therapy, and women's health services—to name a few. These referral centers are backed up by comprehensive patient and community education programs as well as state-of-the-art diagnostic resources including the MRI Center, Single Photon Emission Computerized Tomography, and a complete range of radiologic and clinical laboratory services.

MISSION STATEMENT

The mission of the Arnot Ogden Medical Center School of Nursing is to prepare graduates to function as an entry level professional nurse with the knowledge, skills, and competencies needed to promote and restore health to a diverse patient population utilizing safe quality standards of care.

VISION

The vision of the Arnot Ogden Medical Center School of Nursing is to implement a cost-effective, accredited quality nursing education program that is guided by, and in accordance with, the values of the Faculty and those of the governing organization.

Arnot Health

Arnot Ogden Medical Center
School of Nursing

PHILOSOPHY

The philosophy of the Arnot Ogden Medical Center School of Nursing is based on the belief that each person is a unique individual with inherent worth and basic rights. The faculty believes that:

Person: Each individual has inherent dignity, a creative drive toward higher and more positive levels of existence and self-actualization. The individual makes life choices and is accountable for his/her own actions.

Health is a dynamic and an ever-changing state of physical, psychological, and social well being. Each individual, influenced by heredity and environment, attempts to achieve an optimum state of health. Each member of society has a right to health care regardless of age, race, color, gender, sexual orientation, creed, national or ethnic origin, marital status, spiritual beliefs, handicapping conditions, or political beliefs.

Nursing is a holistic process that focuses on the individual/family/community to prevent illness and restore health. It is an art and science, which incorporates principles from the biological, behavioral, and social sciences. The uniqueness of professional nursing emerges from the synthesis of theory with practice, the integration of the nursing process and nursing role utilizing critical thinking skills and evidence-based practice, with a balance between autonomy and collaboration. The nurse provides services with respect for human dignity and the uniqueness of the patient unrestricted by considerations of social or economic status, personal attributes, or the nature of health problems. The nurse acts as an advocate and is accountable to provide safe, competent and quality nursing care to individuals throughout the life span. Nursing utilizes professional standards of care and practice to achieve quality improvement outcomes.

Education is a continuous process of learning, which strengthens knowledge, skills, attitudes, and values of the learner. As a result of the educational process the student utilizes interpersonal skills, develops technical skills and intellectual skills of critical thinking. The learner is a motivated person who is willing to assume legal and ethical responsibilities. The learner demonstrates growth in self worth and self-evaluation. The learner progresses in personal and professional growth in establishing life-long learning habits.

Nurse Educators prepare learners for the practice of nursing. They recognize the role of nurses in providing holistic care for the emotional, psychological, spiritual and physical needs of individuals/families/communities. Nurse educators have a responsibility to be knowledgeable in health care trends and wellness issues. Knowledge of political issues, trends in employment strategies and career choices is essential. As facilitators of learning, nurse educators assist each student to reach full potential through knowledgeable presentation of theoretical concepts and clinical skills. As role models, nurse educators are active participants in professional activities and professional organizations, and are actively involved in or support nursing research. The individuality of each student is acknowledged and encouraged to strive toward leadership and professionalism.

Community is defined as the people of Chemung County and neighboring counties. By focusing on academic excellence, critical thinking, personal and professional development, the graduate is prepared for a life of productive work, personal enrichment, and community involvement as an individual, family and community member. The faculty recognizes the responsibility to be sensitive to the expanding health care system and to assume an active role in meeting the changing health needs of the community.

The school is responsible for achieving quality, cost effective educational outcomes through a sound program which supports and adheres to standards established by the New York State Education Department, the National League for Nursing, ANA Standards and the Nurse Practice Act. The faculty provides leadership in maintaining and improving the standards of nursing care; and preparing competent beginning nurses capable of meeting the needs of the individual, family, and community.

Arnot Health

Arnot Ogden Medical Center
School of Nursing

GOALS

Upon completion of the nursing program, the graduate will function competently as a beginning practitioner in a variety of health care settings within the community. The beginning practitioner will utilize the nursing process based on scientific principles and therapeutic communication skills in meeting the holistic needs of the individual and family. The beginning practitioner will be a self-directed, contributing member of the nursing profession and society through participation in educational and professional activities. The graduate will accept professional accountability for nursing practice within the framework of legal and ethical guidelines.

FACILITIES AND ALLIANCES

STUDENT POPULATION

The School of Nursing is coeducational and comprised of students representing diverse cultural and educational backgrounds. The student body includes recent high school graduates, college graduates, persons seeking new career goals, students with some college credit seeking a career in nursing, individuals preparing to reenter the workforce, and licensed practical nurses seeking further professional education.

NON-DISCRIMINATORY POLICY

Arnot Ogden Medical Center School of Nursing fully subscribes to all federal and state civil rights laws banning discrimination in higher education. No qualified candidate shall be discriminated against on the basis of age, gender, sexual preference, marital status, race, color, national or ethnic origin, creed, political affiliation or disability.

RESIDENCE FACILITIES

School of Nursing students have a wide range of residence options. Students may choose to live in dormitory facilities on the Elmira College campus, at home, or in a residence elsewhere in the community. All students are responsible for their own transportation. Elmira College facilities offer double rooms and/or suites, which are comfortable and modern. Basic furniture includes a bed, dresser, desk and chair. Residence facilities also include formal lounges, kitchenettes, TV rooms and laundry facilities. The formal lounges are designed for student parties and other group activities. Elmira College assumes responsibility for governing residence living. Students are required to abide by the Elmira College rules and regulations.

EDUCATIONAL FACILITIES

The School of Nursing's main teaching area is located within the L.D. Clute Education Building on the Arnot Ogden Medical Center campus. The School of Nursing teaching areas include: the Theresa Gulati Lecture Hall, the Virginia Hilfiger Room, the Ruth Nesbit Learning Research Center (LRC), which include computers for student use and simulated patient beds with a simulated manikin, and additional classrooms. All teaching areas are equipped with up-to-date audiovisual teaching equipment. The faculty offices and a conference room are also located in the L.D. Clute Education Building. Internet access is provided in select locations for student use and teaching purposes. Student library facilities in the Wey Memorial Library are located on the main floor of the medical center. The Wey Memorial Library offers a collection of nursing and medical volumes, and maintains subscriptions to professional medical and nursing journals. A professional staff is available providing assistance with library use, computer/internet access to journals, loan of printed and audiovisual materials, copy facilities and special research needs. Arnot Ogden Medical Center offers clinical facilities for experiences in general medical-surgical nursing, orthopedics, perioperative, and neurology nursing and long-term care nursing. In addition, experiences are offered in specialty areas such as: emergency care, ambulatory services, cardiac services, critical care/trauma services, dialysis, geriatrics, oncology, diabetes care team, pediatrics, perinatal/neonatal. Planned field and teaching experiences, workshops and conferences in the community supplement the instruction and clinical experience.

Arnot Health

Arnot Ogden Medical Center
School of Nursing

ASSOCIATE AGENCIES AND INSTITUTIONS

Members of the Elmira College faculty teach first- and second-year foundation courses in physical, biological and social sciences as well as a course in English for School of Nursing students. Classes meet on the Elmira College campus. Elmira College is fully accredited by the Middle States Association of Colleges and secondary Schools. Students are welcome to use Elmira College library facilities at the Gannett-Tripp Learning Center. The Elmira Psychiatric Center and BSU at St. Joseph's Hospital, located in downtown Elmira, provides clinical facilities for psychiatric nursing. Other community resources may be utilized as deemed necessary to meet curriculum and individual learning needs.

ADMISSION REQUIREMENTS

All School of Nursing applicants must be graduates of accredited high schools or have successfully completed the high school equivalency examination. Students in the process of completing high school requirements for graduation are encouraged to apply.

Currently in high school - at least 19.5 units are required for admission to candidacy, including the following subjects:

*Chemistry with lab	1 unit
*Mathematics with Algebra component.....	2 units
Biology.....	1 unit
Earth or General Science	1 unit
English	4 units
Social Studies.....	2 units
and Electives	

***The Recruitment Committee places emphasis on strength in mathematics and science during the evaluation process.**

For accepted candidates who graduated from high school several years prior to application for admission, the faculty may, under certain circumstances, consider waiver of some high school subjects. However, this **does not** include the mandatory **chemistry and algebra requirement**. **Applicants who did not take algebra and/or chemistry (with a lab component) in high school, must complete college level algebra and a college chemistry course with lab (4 credits) prior to submitting a completed application packet (grades must be a grade of "C" or higher for eligibility)**. All candidates will be considered individually on the basis of their qualifications.

Criminal Background Check

All applicants to the Arnot Ogden Medical Center School of Nursing must submit to and satisfactorily complete a background check within **10 days of receiving an acceptance letter**. A criminal background check is a condition of admission into the School of Nursing. An offer of admission will not be final until the completion of the background check with the results as deemed favorable. Admission may be denied or rescinded based on a review of the background check.

Students who refuse to submit to a background check will be denied admission to the School of Nursing.

Past criminal history may have an impact upon the ability to obtain licensure and employment as a registered nurse. All fees for the criminal background check are the responsibility of the applicant. It is the responsibility of each applicant to pay the fee for the screening directly to CastleBranch. (Formerly Certified Background) All background screenings are conducted by a third party to ensure privacy. **Results from any other company will not be accepted.**

Arnot Health

Arnot Ogden Medical Center
School of Nursing

Students must agree that all results are available to the program and the clinical sites associated with the program. Should a clinical agency refuse to place a student based on the outcome of criminal background check, the Arnot School of Nursing has no responsibility for arranging alternate clinical placements.

Results of the criminal background check will be valid so long as the student remains in the program. If the student leaves the program for any reason, a new criminal background history check will be required before readmission.

CHARACTER AND PERSONALITY

The faculty evaluates potential students on the basis of integrity, intelligence, stability and maturity as well as the level of concern the candidate genuinely feels for people, because these qualities are critical to success in the field of professional nursing. The faculty takes into consideration letters of recommendation submitted by professional and personal sources that are **not** members of the candidate's family. These letters may address character, personality, personal integrity, citizenship and industry on behalf of the School of Nursing applicant. The faculty will consider only those recommendations provided by references who are **not** relatives or friends of the applicant and who have experience with the candidate's personal, scholastic and/or professional capabilities.

HEALTH

After final acceptance, applicants are expected to present evidence of good physical health, confirmed with an examination by the Arnot Ogden Medical Center Occupational Health Center. The School of Nursing office coordinates the timing for the physical examination for each School of Nursing student. The pre-entrance physical must be done by the Occupational Health office due to the mandatory drug and alcohol testing that is conducted at the time of the appointment. Admission to the Arnot Ogden Medical Center School of Nursing is contingent upon the drug and alcohol screening test results indicating no evidence of drug or alcohol use. In the event of a drug and/or alcohol screening result indicating use of an illegal drug, controlled substance without a legal prescription and alcohol use, student admission to the nursing program will be withdrawn. Results will be submitted to the Systems Director of the School of Nursing.

Any such student whose admission is withdrawn to the Arnot Ogden Medical Center School of Nursing due to a positive drug and/or alcohol test will be considered for readmission if the following conditions are met:

1. Submit to an evaluation for substance and/or alcohol abuse by an approved treatment agency and complete the prescribed treatment plan.
2. Submission to a drug test prior to admission/readmission. This drug test will be at the student's expense. A positive drug test will result in ineligibility for admission.
3. Submission to random drug test as requested by the Arnot Ogden Medical Center School of Nursing after admission into the program. A positive drug test will result in permanent dismissal for the Arnot Ogden Medical Center School of Nursing

Each candidate will submit the following reports at the time of their physical and **prior** to entering the nursing program:

- Immunizations:
 - ▶ *Two-step TB (Mantoux); Tdap & Meningococcal Vaccine or dates if declined*
 - ▶ *Two doses: Measles, Mumps and Varicella Vaccine (if no documented Chickenpox) or titers*
 - ▶ *Rubella (MMR) vaccine or titer*
 - ▶ *Polio Series (OPV) three doses*

Arnot Health

Arnot Ogden Medical Center
School of Nursing

ADMISSION REQUIREMENTS

All documents, transcripts, and ATI TEAS results must be received by the May 15th application deadline date to be considered for a September admission date.

The application form, reference letters and high school transcript request forms are included in the back of this catalog. All correspondence for admission to the School of Nursing should be addressed to:

Office of the Director

Arnot Ogden Medical Center School of Nursing
600 Roe Avenue
Elmira, NY 14905

Each **September**, a new group of student nurses begin classes at the School of Nursing. There are no January admissions to the program. Prospective students interested in enrolling should submit applications well in advance of the May 15th deadline to allow the School sufficient time to process credentials. **All completed application packets must be accompanied with a \$50 non-refundable application fee by the May 15th application deadline.**

A faculty committee reviews and evaluates the applicant's credentials including the application, transcripts (including high school and/or each school or college attended), ATI TEAS score, and letters of reference.

Criteria for acceptance include:

- **Class ranking in the upper half of the candidate's high school graduating class**
- **Cumulative grade average of 80% or above**
- ***If the applicant is currently in high school: Grades of 80% or above for courses in Algebra, Biology and Chemistry. Biology requirement is waived if the applicant has already graduated from high school.***
- ***Completion of the ATI TEAS exam (Test of Essential Academic Skills) with a proficiency score**

The faculty grants admission to the program on the basis of the following:

- Interest in the field of nursing
- Demonstrated scholastic ability
- Letters of reference which may include statements from school principles, counselors and teachers, business associates and supervisors or other references who are **not** relatives or friends
- *Results of ATI TEAS exam
- Criminal background check results – to be completed by applicant within 10 days after receipt of the acceptance letter
- Essay stating the reasons for selecting nursing as a career, selecting AOMC School of Nursing, and career plans.

*The Arnot Ogden School of Nursing does not require completion of the SAT examination. We use the ATI TEAS exam as one component of the evaluation criteria for admission. **All applicants** must take the TEAS assessment prior to the May 15th application deadline. Final acceptance is based on the candidate's entire application: grades, TEAS results, etc. If the first attempt at the test is unsuccessful, applicants may repeat the TEAS exam one time.

The faculty committee reviews and evaluates credentials individually. Applicants accepted into the program reserve their place by submitting a **nonrefundable** deposit of \$120 within 30 days of receiving the formal notice of acceptance. Students who wish to live at the Elmira College residence facilities must reserve space with an additional \$150 deposit. The School applies this nonrefundable fee toward the costs of the first term residence fee. **All admissions to the Arnot Ogden Medical Center School of Nursing will submit to and must satisfactorily complete a criminal background check within 10 days of receiving an acceptance letter for admission. All new admissions will attend a freshmen orientation program held annually.**

Arnot Health

Arnot Ogden Medical Center
School of Nursing

INCOMPLETE APPLICATIONS

Records for candidates who do not enter the School of Nursing due to incomplete application folders or who do not meet the admission criteria are secured in a separate confidential area.

WAIT LIST

At the discretion of the Arnot Ogden School of Nursing, qualified applicants may be wait-listed when the School's clinical and facility capacity have reached maximum levels. Wait-listed applicants will be notified if space becomes available. When offered admission, these applicants must meet the post-acceptance requirements as outlined in our admissions policy.

CURRICULUM

The School of Nursing offers full time study. We are a three-year academic program leading to a Diploma in Nursing. Upon admission to the program of study, the student has five years to complete requirements for graduation.

Application for Admission by Transfer or Advanced Placement

The faculty expects applicants to submit an official transcript from all schools attended and a personal evaluation from the institution from which the student is transferring. School of Nursing applicants seeking admission with advanced standing must meet the admission requirements and/or the equivalent to qualify for consideration as transfer or advanced placement candidates. This includes successful completion of the ATI TEAS exam with proficiency score. Advanced placement in *comparable* nursing courses may be given if completed within the last 5 years. *Comparable* nursing courses taken *over 5 years ago* must be repeated within our curriculum. The faculty grants transfer credits for a final course grade of "C" or higher (a grade of C- or lower is not eligible for transfer status). The faculty plans programs for each transfer student individually to preserve the continuity of required sequential courses.

Application for Admission by a Practical Nurse

The Recruitment Committee reviews applications from practical nurses that seek to further their professional education through the School of Nursing. A request for the PN to RN program of study is based on the following criteria:

- Graduation from an approved LPN program
- General admission requirements have been met
- GPA of 2.0 or above in basic practical nurse program
- Successful completion of the ATI TEAS exam with proficiency score.
- Criminal background check results – to be completed by applicant within 10 days after receipt of the acceptance letter

Readmission

- Students who withdraw or resign from the School of Nursing may apply for readmission depending upon the terms of their departure. The student should contact the School of Nursing for an *Application for Readmission* form. The *Application for Readmission* form should be submitted to the school (12) **twelve weeks** in advance of the term **with a \$50.00 reapplication fee**. Acceptance and placement within the program will be considered on an individual basis.
- All readmissions to the Arnot Ogden Medical Center School of Nursing must submit to and satisfactorily complete a criminal background check **within 10 days of receiving an acceptance letter for readmission**. The criminal background check process will be provided upon reapplication.
- Substance abuse testing at the Occupational Medicine Clinic will be conducted prior to readmission.
- All outstanding financial obligations must be met in accordance with agreements with the Financial Aid Officer prior to readmission.

ArnotHealth

Arnot Ogden Medical Center
School of Nursing

TRANSPORTATION, EMPLOYMENT & ACADEMICS

TRANSPORTATION

The School of Nursing requires students to provide their own transportation to the School of Nursing, Elmira College, clinical agencies, workshops and teaching days. Students are generally able to arrange car pools for locations not within walking distance.

STUDENT EMPLOYMENT

The School of Nursing participates in the work-study program, which offers a number of part-time, call-in positions to students who can demonstrate financial need.

Employment opportunities at Arnot Ogden are dependent upon government funding levels and include these positions, when available:

- Accounting Dept
- Patient Accounting
- Cardiac Rehab/Fitness Center.

Additional information about the work-study program can be obtained in the Financial Aid office (607 737-4405). The School of Nursing does not permit students to seek employment as nursing interns in any medical center or medical facility at any time during the nursing program due to New York State and Department of Education licensing requirements.

ACADEMICS

There is an established grading system from which all grades are computed giving recognition to both theory and clinical experiences.

Definition of clock hours for lecture and clinical:

- Theory: one clock hour = 50 minutes
- Clinical: one clock hour = 60 minutes
- 15 hours instruction (lecture) = 1 credit
- 60 hours clinical practice = 1 credit

Term lecture hours to clinical hours:

1st term: 1:1

2nd term: 2:2

3rd term, except 303: 1:3

3rd term, 303: 1:4

Arnot Ogden Medical Center
School of Nursing

SUPPORT SERVICES

STUDENT RECORDS

The School of Nursing faculty expects students to notify the School of any change in name, address, email, phone or any other data necessary for maintenance of accurate records.

In compliance with the Family Education Rights and Privacy Act of 1974, students have the right to review their records, which are on file in the Director's office. Students must submit written consent before educational information, health records, letter of reference, or transcripts can be released to another educational institution or prospective employer.

HEALTH SERVICES

The faculty assists students with preventive and protective measures to guard against chronic or acute illness. Should illness occur, the School is equipped to provide prompt intervention and treatment through the Arnot Ogden Medical Center's Occupational Health office. The office provides consultant services, nursing assessment, health assessment, and health teaching.

During enrollment, the School of Nursing may schedule health assessments for each student. Students must schedule all required examinations and assessments with the medical center unless they approve other individual arrangements.

All students should note: The School requires all students be covered by hospitalization insurance for the duration of the School of Nursing program. If for any reason a student's coverage lapses (i.e. policy expiration), the student or family will be totally responsible for any Arnot Ogden Medical Center healthcare expenses not covered by personal insurance. Policies should be reviewed closely and changes made to assure adequate coverage throughout the program. The School does not assume the cost of elective procedures. Medical referrals and consultations are available to a limited extent. The School assumes no responsibility for illness related to physical defects present at the time of the physical examination, for accidents occurring outside of School activities, or illness treated outside student health services. Students are responsible for expenses resulting from special therapies, dental care and eye refraction.

The faculty believes that an organized and carefully planned student health service is an essential element of the curriculum. Students must maintain good health principles and assume responsibility for their own health.

GUIDANCE SERVICES

Guidance services available through the School of Nursing are designed to complement the School of Nursing philosophy. Based on the premise that each student has unique capabilities and a responsibility to nurture and develop this potential, guidance services help each individual identify and enhance personal strengths while assuming responsibility for professional growth and development. The School encourages independence, teaching students to become increasingly adept in solving personal and professional challenges through formal and informal conferences with the Director of the School of Nursing and members of the faculty.

School of Nursing faculty members provide services in two different settings. Each School of Nursing class is assigned a faculty class advisor for group direction and counseling. Likewise, each student receives a personal faculty advisor who provides individual guidance during periodic private conferences about individual progress. Faculty advisors are always available to assist students with any emergent need or question. The School also offers the services of a qualified counselor who provides individual counseling sessions at no charge to the student.

ArnotHealth

Arnot Ogden Medical Center
School of Nursing

GRIEVANCE, ABSENCE, & RESIGNATION POLICIES

GRIEVANCE POLICY

The School of Nursing offers students an appeal process developed in a cooperative venture involving students and faculty. Any student who feels unfairly treated may seek recourse through this grievance procedure and the accompanying appeal procedures. Students will find the appeal process described thoroughly in the Student Handbook.

VACATIONS AND LEAVES OF ABSENCE

Scheduled breaks and/or vacations take place between School of Nursing terms and during the summer. Other breaks and/or vacations coincide with observance of the following holidays:

- New Year's Day
- Martin Luther King Day
- Memorial Day
- Thanksgiving Day
- Christmas Day

Student's requests for a leave of absence should be submitted to the faculty for individual consideration. Generally, the School of Nursing considers requests for health-related leaves with approval from a physician. In the case of pregnancy-related leave of absence, the initiation and the length of the leave is decided by the student's obstetrician and the faculty. The faculty, on a case-by-case basis, considers leaves of absence requested for other reasons.

Students must submit permission from the physician to return to class and clinical assignments.

Excessive loss of time from any one class or nursing level may require repetition of a course or transfer into another class to meet educational requirements.

WITHDRAWALS AND RESIGNATIONS

Students who wish to withdraw from the School of Nursing may do so by submitting a letter of resignation to the Director of the School of Nursing. The School encourages students to arrange interviews with the Director of the School before leaving to avoid jeopardizing readmission to the program at a later date. To be eligible for refunds, the withdrawal or resignation notice must be in writing. The refund depends on the date of withdrawal/resignation – refer to the financial plan.

The faculty reserves the right to request withdrawal from any student who appears academically, clinically or personally unable to carry-out professional responsibilities in nursing.

ArnotHealth

Arnot Ogden Medical Center
School of Nursing

STUDENT LIFE

All School of Nursing students are members of the Student Association. The Student Association functions as the voice of the total student body by providing organized and self-directed government. The organization enhances communication among students as well as between the faculty and the student body.

Students also may become members of the Student Nurses Association of New York State and the National Student Nurses' Association. Representatives from this group may attend meetings and conventions sponsored by state and national association chapters.

Each School of Nursing class receives guidance from an assigned faculty advisor, who assists in planning fundraising activities to underwrite the cost of extracurricular activities and special class projects.

Students are expected to assume initiative and responsibility for planning social activities. Community cultural resources include the First Arena, Clemens Center for the Performing Arts, Elmira Little Theater, Corning Glass Center and a variety of Elmira College programs.

Students enrolled in the School of Nursing assume an obligation to conduct themselves in a manner compatible with the School's function. Policies and privileges concerning student conduct, student association, use of facilities, and related matters are stated in the Student Handbook, which is presented to each student upon admission. The handbook also includes the constitution and bylaws of the Student Association. Each student is responsible for observing school policies as stated in the Student Handbook.

Arnot Health

Arnot Ogden Medical Center
School of Nursing

GRADING AND PROGRESSION

GRADING SYSTEM

When a course has both theory and clinical components, each component may have separate factors that are graded and weighted according to course requirements. A student will receive a numerical grade for the theory and a satisfactory or unsatisfactory grade for the clinical component. Students must maintain a 77% or C+ (2.3) average in theory and a satisfactory performance clinical in nursing courses. An unsatisfactory grade in clinical performance will result in automatic failure regardless of the grade attained in a theory grade. A theory grade of less than 77% will constitute a course failure regardless of the grade achieved clinically. When a course has theory and clinical components, both components are taken at the same time and must be completed satisfactorily in order to meet course requirements.

At the completion of each nursing course with a clinical component, the student receives a comprehensive clinical evaluation for the course. The student shall sign the evaluation following discussion with the instructor. The student shall also have the option of signing a statement as to whether they agree or disagree with the evaluative comments.

Both theory and clinical components of a course must be satisfactorily completed at the same time to constitute passing the course. Faculty will evaluate a student who will not complete the program within the 5-year timeframe. The faculty keeps students continuously informed of their progress. Upon written consent of the student, the faculty will notify parents or guardians of the student's progress in the program on a regular basis.

PROGRESSION POLICY

A failure in a nursing course means the student may not progress to the next level until the failed course has been repeated successfully. A *second failure* of a nursing course will constitute *dismissal* from the program. Failure (grade of "F") in an Elmira College course will result in academic probation and requires completion of the course with a passing grade to progress to the next level. **Only one D is acceptable in a college course. If the student receives a second "D", they are required to retake one of the college courses, obtaining a "C" or higher before progressing to the next level.**

First Level to Second Level

The School of Nursing will progress students to the second level upon successful completion of the first level, provided the student achieves the following minimum requirements:

- A final grade of 77% (C+) in Nursing 101, 102, 103; Nutrition, Pharmacology, and Developmental Psychology
- Satisfactory clinical performance in Nursing 102 and 103
- All financial obligations are met prior to progression
- All outstanding lab/library materials must be returned and any fines paid
- Successful completion of college courses

Second Level to Third Level

During Nursing 201, the junior student will complete a Dosage & Calculation Competency, which is included in their quiz average and final grade.

- Remediation is required for those students who do not attain at least a score of 90% on the competency.
- In the case of failure, of the initial competency, the student will have two (2) additional opportunities to retake the competency. The retest must be completed with a passing score ($\geq 90\%$) before beginning of Nursing 201 clinical or the student will be unable to administer medications in the clinical setting.
- Failure to pass the third attempt at the dosage and calculation competency will result in failure of Nursing 201.

Arnot Health

Arnot Ogden Medical Center
School of Nursing

GRADING AND PROGRESSION continued

Second Level to Third Level continued

The School of Nursing will progress students to the third level upon successful completion of the second level, provided the student achieves the following minimum requirements:

- A final grade of 77% (C+) in Nursing 201, 202, and 203
- Satisfactory clinical performance during the second level
- All financial obligations are met prior to progression
- All outstanding lab/library materials must be returned and any fines paid
- Successful completion of college courses

Third Level to Graduation

Prior to the first day of clinical for Nursing 301, students are required to take a Dosage & Calculation Competency, which is included in their quiz average and final grade.

- A score of $\geq 90\%$ is required on this competency to pass medications in the clinical setting.
- At the completion of the third level, the student may be recommended for graduation provided the following requirements have been met:
 - A final grade of 77% (C+) in Nursing 301, 302, and 303.
 - Satisfactory clinical performance during the third level
 - All courses must be completed within the planned program of studies
 - All outstanding lab/library materials must be returned and any fines paid
 - All financial obligations must be met prior to graduation

A faculty committee assumes the responsibilities for periodic evaluations of student achievement and decides upon the progression of students at the close of each term or level of the program. **Once the student is formally enrolled in the Arnot Ogden Medical Center School of Nursing program, the student must complete the program within five academic years.** Both theory and clinical components of a course must be satisfactorily completed at the same time to constitute passing the course. The faculty provides individual evaluation of students who will not complete the program within the required timeframe due to extenuating circumstances (i.e. military commitment or illness).

GRADUATION

Qualification for award of the nursing diploma depends upon more than completion of formal course requirements with the required grade-point average. To qualify for graduation and the nursing diploma, students must meet the following personal and academic requirements.

- Satisfactory completion of the full program of studies
- Satisfies all financial obligations
- Favorable faculty recommendations covering both professional and academic qualifications

Graduation Honors

The faculty traditionally honors members of the graduating class who have demonstrated outstanding achievement in the School of Nursing program. These individuals are formally recognized during commencement.

Arnot Health

Arnot Ogden Medical Center
School of Nursing

PUBLIC DISCLOSURE STATEMENT and LICENSURE

Upon completion of the nursing program, graduates of the Arnot Ogden Medical Center School of Nursing must take a state licensing examination in order to practice as a registered nurse. The state licensing examination for registered nurses is the National Council Licensing Examination for Registered Nurses (NCLEX-RN). Any individual who has been convicted of a felony may take the licensing examination but may not receive licensure until the New York State Board of Nursing has reviewed the case.

ELMIRA COLLEGE COURSES

BIO 1210. Anatomy & Physiology I

Enables the student to:

- Identify the gross and microscopic components of the skeletal, muscular and nervous systems and the cells, tissues and organs of the body
- Achieve familiarity with anatomic positions and terminology of human anatomy
- Explain physical and physiological mechanisms involved in interactions of body systems required for homeostasis
- Recognize and indicate ways in which body systems and processes may malfunction

Prerequisites: High School Biology and Chemistry or permission of instructor. 4 credit hours.

BIO 1211. Anatomy & Physiology II

Enables the student to:

- Identify gross and microscopic components of the circulatory, respiratory, digestive, excretory, reproductive and endocrine systems
- Explain physical and physiological (functional) mechanisms of these systems
- Describe and explain mechanisms involved in maintaining homeostasis in the interactions of the systems
- Recognize and indicate ways in which body systems may malfunction

Prerequisites: BIO 1210 or permission of instructor. 4 credit hours.

CHE 1010. Introductory Chemistry

Enables the student to:

- Acquire sound laboratory techniques
- Prepare chemical solutions and identify chemical families
- Use the metric system
- Recognize the chemical basis of certain physiological activities
- Recognize all the gas laws and recognize their relationship to respiration; to recognize the components of blood, and to recall their function; and to recognize the components of normal and pathological urine

No prerequisites. 4 credit hours.

BIO 1110. Microbiology

Enables the student to:

- Examine the structure of life processes of microbial organisms with emphasis placed upon bacteria and viruses; their relationship to human life; control and destruction of disease-producing organisms
- Learn aseptic technique, staining, characteristics of growth under laboratory conditions, sterilization and action of antibiotics in laboratory, classroom and recitation sessions
- Learn composition and special uses of the more common culture media

Prerequisites: High School Biology, CHE 1010, BIO 1210. 4 credit hours.

ArnotHealth

Arnot Ogden Medical Center
School of Nursing

ELMIRA COLLEGE COURSES cont'd

WRT 1010. College Composition

Enables the student to:

- Achieve proficiency in college-level written communication
- Improve general written communication skills

Prerequisite: High School English. 3 credit hours.

PSY 1010. Introductory Psychology

Enables the student to:

- Learn introductory principles of psychology, including physiological psychology, sensation and perception, learning and memory, emotion and motivation, personality, behavior problems and psychotherapy, behavior changes across the life span, attitudes, conformity and social groups.

No prerequisites. 3 credit hours.

SOC 1010. Introductory Sociology

Enables the student to:

- Acquire introductory sociological concepts, basic information and elementary skills for the study of human societies
- Acquaint the student with sociological view of social reality
- Introduce the student to the history of sociology and major concepts, techniques, theories, and findings in the field
- Identify forms, functions and relationships of groups and analyze social institutions, processes, values and controls through classroom meetings, readings and reports.

No prerequisites. 3 credit hours.

Arnot Health

Arnot Ogden Medical Center
School of Nursing

SCHOOL OF NURSING COURSES

First Level Course Descriptions

Nursing 101 (Fundamentals) is designed for the beginning student to develop knowledge of the roles of the nurse based on moral, legal, ethical and professional standards. The concept of the individual as a patient is explored as appropriate in health and illness. The student begins to develop problem-solving, intellectual and technical skills used to assist individuals in meeting activities of daily living in a safe comfortable environment. Classroom and laboratory activities use critical thinking concepts and the nursing process to study actual and simulated patient care situations. **No prerequisites.**

- Classroom hours 30
- Clinical experience hours 60

Nursing 102 (Fundamentals II) builds upon previously learned concepts, techniques and principles to form the foundation for expanding the student's knowledge base to promote healthy response patterns in the hospitalized adult experiencing the stress of illness. The focus of the course is on applying the nursing process to meet specific health problems and the principles related to medication administration, sensory alteration, wound care, thermal applications, nursing care plans, intro into fluid and electrolytes, culture and spirituality, holistic nursing and the basic principles of physical assessment. Each system of the body will be covered during theory and time allotted in the nursing lab to practice the newly learned assessment skills prior to clinical. Developmental variations are discussed as appropriate. Concurrent theory and clinical laboratory experiences assist the students in applying concepts and psychomotor skills to the care of selected adult hospitalized patients.

Prerequisites: Nursing 101, Anatomy & Physiology I, Chemistry

- Classroom hours 30
- Clinical experience hours 60

Nursing 103 (Med-Surg I) is designed for the freshman level student to provide a holistic, health-orientated approach to exploration of the patient throughout the lifespan. Developmental, family-centered care and cultural factors are integrated to incorporate health maintenance in the pediatric and the acute medical surgical population. The theory and clinical experiences are planned to gain knowledge of concepts and clinical competency skills to promote, maintain, and restore optimal wellness of the patient responding to alteration in function related to: fluid and electrolyte imbalances, infectious conditions along with the pharmacological approach to antibiotics, pediatric assessment focusing on health and wellness, and family centered care. The student will utilize the Denver II screening tool, along with teaching health promotion to the middle school population.

Prerequisites: Nursing 101, 102, Pharmacology, Anatomy I & II, Chemistry

- Classroom hours 30
- Clinical experience hours 60

Pharmacology 110 introduces a science based upon information from anatomy, physiology, and chemistry. This course assists the student in correlating the principles, practices and nursing responsibilities inherent in the safe administration of medications and includes the computation of medication dosages. Pharmacology will include the discussion of nursing practice. Utilizing the nursing process and selected case studies will emphasize critical thinking and patient teaching. **Prerequisite: Nursing 101**

- Classroom hours 37.5

Arnot Health

Arnot Ogden Medical Center
School of Nursing

SCHOOL OF NURSING COURSES - continued

Developmental Psychology 130

This course is designed to provide the student with a comprehensive introduction to developmental psychology using a lifespan approach. Societal and cultural influences affecting human evolution are investigated. The physical, cognitive, social and emotional development seen during childhood, adolescence, adulthood, and aging are examined. Erickson's personality development and Piaget's cognitive development help form the foundation for the discussion on major developmental tasks to be accomplished at each stage of life. The teaching of Kübler Ross and others are used in the discussion of death as a normal life process. **Prerequisite: General Psychology**

- Classroom hours 30

Nutrition 120 is designed to provide an opportunity for the student to acquire knowledge of the principles of nutrition in the maintenance and promotion of optimum health. This course provides the foundation for sound dietary planning for people in any age group as well as for themselves. The course focuses on the concept of dietary balance to maintain or restore to the best possible level of health. The diet must furnish sufficient energy and nutrients to meet the metabolic needs at all stages of the life cycle. The principles of nutrition are integrated with the physiologic, cultural and socioeconomic factors influencing the daily selection of foods. Nutritional and dietary planning, food habits and cultural food patterns are studied in relation to influences on nutritional needs during health and illness. **Chemistry preferred but not a prerequisite.**

- Classroom hours 37.5

Second Level Course Descriptions

Nursing 201 (Med-Surg II) is designed for the junior level student to apply the nursing process and critical thinking skills to meet the complex needs of patient throughout the life span and/or their families who are responding to acute and chronic medical-surgical health problems. The theory and clinical experiences are planned to gain knowledge of concepts and clinical competency skills to promote, maintain, and restore optimal wellness of patient responding to alteration in function related to diabetes mellitus, respiratory system, gastrointestinal system, genitourinary system, and liver disease. Response to complex health problems associated with altered musculoskeletal, respiratory, integumentary, gastrointestinal, and genitourinary function is discussed. Emphasis is placed on the student functioning as a contributing interdisciplinary health team member in collaborating to provide primary, secondary, and tertiary prevention for medical-surgical patient and/or families at various points along the wellness illness continuum in acute care and a variety of community-based settings. The students will participate in a flu clinic administering flu shots to Arnot Health Employees.

Prerequisites: Completion of First Level courses.

- Classroom hours 53
- Clinical experience hours 150

Nursing 202 (Women's Health and Maternal-Child Nursing Care)

Students learn to utilize the nursing process to meet the needs of the individual and/or family during the childbearing phase of life. The student gains knowledge and skills such as technical, critical-thinking, problem solving, and teaching/learning. Theory and clinical experiences include all aspects of the maternity cycle, such as prenatal, intrapartal, postpartal, and newborn. The student also gathers experience in dealing with the specialized problems/needs of high-risk mothers and/or infants. Women's health issues are also included. Cultural, nutritional, psychological, social, pharmacological, developmental, and legal/ethical concepts are integrated throughout the course. The students learn by participating in selected clinical independent studies, such as hands on newborn and bonding assessments, discussion groups, conferences/seminars, and community experiences such as visits to a midwives office, OB/GYN office, neonatal intensive care unit, high-risk OB office-if it is available to students, neonatal intensive care unit, and a local pregnancy resource center. **Prerequisites: Completion of First Level courses.**

- Classroom hours 53
- Clinical experience hours 150

Arnot Health

Arnot Ogden Medical Center
School of Nursing

SCHOOL OF NURSING COURSES - continued

Nursing 203 (Mental Health) is designed to expose the student to concepts of Psychiatric/Mental Health Nursing. The student will utilize scientific principles, nursing knowledge and critical thinking skills to care for patients with psychiatric disorders. The course offers individual, family and group concepts of mental illness that teach students to address the needs of these patients. Primary prevention and maintenance of mental health are also addressed. Course content includes theories of personality development, functions and structure of the family. Emotional and psychiatric disorders of infancy, childhood, adolescence and adulthood are taught with clinical experiences provided. Other stress-related problems such as substance abuse, child abuse, spouse abuse and elder abuse are included. **Prerequisites: Completion of First Level courses.**

- Classroom hours 45
- Clinical experience hours 90

Third Level Course Descriptions

Nursing 301 (Med-Surg III) is the advanced medical-surgical course that builds upon the student's previous knowledge and experiences. The nursing process is the framework that the students utilize to plan, implement, and evaluate their nursing care. Students provide care for one to two patients, who are experiencing a return of a chronic health problem or a new onset of a problem. The focus this semester includes hematologic, endocrine, basic cardiovascular, renal, and oncologic concerns. Integrated throughout the term include concepts such as, cultural, nutritional, psychological, pharmacological, social, developmental, and legal/ethical. Besides care of the patient in the acute care medical center setting, the student also has the following experiences: interventional radiology, cardiac catheterization, IV therapy, case management, and the Falck Cancer Center. Throughout the term, the students gain skills in problem-solving, critical thinking, and the use of evidence-based nursing practice.

Prerequisites: Completion of First and Second Level courses.

- Classroom hours 60
- Clinical experience hours 150

Nursing 302 (Critical Care) is designed to enable students to apply the nursing process while caring for human needs of the unstable patient who is undergoing change in critical life processes. The students will apply critical thinking process with knowledge, principles, and skills in new situations experienced in the care of persons who are at various levels of development and encountering critical life situations. These situations include critical respiratory and cardiac conditions, poisonings, trauma, neurologic disorders and burns. Care is provided to patients in the Intensive Care Unit, Emergency Department and other community sites. **Prerequisites: Completion of First and Second Level courses, Nursing 301, and 90% pass rate on dosage and calculation competency.**

- Classroom hours 60
- Clinical experience hours 150

Nursing 303 (Leadership Nursing) is designed to assist students' transition into the role of the graduate nurse. The major emphasis is the role of the nurse as a health team member and as a leader/manager in the care of groups of patients. The students examine theories and develop skills that are essential for the nurse as a leader/manager in nursing practice. Students continue to develop and refine their own philosophy of nursing. In as much as this is a time of personal growth, the issues of human rights, nurses' rights, collegial relationships and interpersonal factors are discussed. Students select a medical-surgical unit where they increase their proficiency in the use of the nursing process using categories of human responses with patients and families while under the guidance of an approved preceptor. The stresses of practicing as a graduate nurse and the use of appropriate coping skills are explored. **Prerequisites: Completion of First and Second Level courses, Nursing 301 and Nursing 302.**

- Classroom hours 30
- Clinical experience hours 180

Arnot Ogden Medical Center School of Nursing

AWARDED COLLEGE CREDIT

As of 2002, the Arnot Ogden Medical Center School of Nursing received 35 credits from the National College Credit Recommendation Service-NCCRS (formerly National PONSI), which may be accepted in lieu of transfer credits to an upper-division nursing program.

LOCATION

Arnot Ogden Medical Center School of Nursing
L.D. Clute Education Building
Corner Grove and Ivy Streets
Elmira, NY 14905

From the east—

From Route 17/I86, take exit 56. On the exit ramp, take the second left onto Church Street into the city of Elmira. Proceed straight on Church St. into the residential town area to the Walnut Street traffic light. Turn right at the intersection of Church and Walnut Streets. Continue on Walnut to the Roe Avenue traffic light. Proceed past the intersection and take the second left on to Ivy Street. The L.D. Clute Education Building is a single-story brick facility located at the corner of Ivy and Grove Streets adjacent to the Emergency Room entrance.

From the west—

Exit Route 17/I86 at the Route 352 South Corning ramp. Continue on Route 352 into the Town of Elmira. Continue eastbound on Water Street and follow the blue medical center signage. Signs will direct you to turn left at Hoffman Street, and to continue straight to the intersection at Roe Avenue. Turn right onto Roe Avenue. After the Ogden Avenue intersection, the Falck Cancer Center will be visible on the left. Turn left into the Medical Center complex. The L.D. Clute Education Building, a single-story brick facility, is located straight ahead at the corner of Ivy and Grove Streets adjacent to the Emergency Room entrance.

NCLEX-RN Pass Rates

Current NCLEX-RN **first time test taking** results for the three most recent graduating classes are:

	Number Graduating	Number Passing on first attempt	% Passing	Employment Rate % actively seeking employment as RN & employed within 12 months of graduation
June Class of 2013	10	8	80%	100%
June Class of 2014	12	8	66%	92%
June Class of 2015	10	9	90%	100%

Retention Rate as measured by number of students returning each year:

Academic Year	Retention Rate
2012-2013	74%
2013-2014	63%
2014-2015	81.5

Graduation and Employer Satisfaction Surveys

Surveys received from graduates and their employers indicate average and above average satisfaction with the program.

Upon request, Arnot Ogden Medical Center’s School of Nursing will provide a copy of the documentation describing the institution’s accreditation and licensing approval. Information available by calling the School of Nursing or writing to the ACEN, Accreditation Commission For Education In Nursing, Inc. (formerly NLNAC, National League for Nursing Accrediting Commission) at the following address:

FINANCIAL PLAN

All expenses indicated in this material are approximate and based on the School of Nursing's current costs. Therefore, they are subject to revision at any time.

1. Upon notification of acceptance, the School of Nursing requires applicants to pay a **non-refundable** \$120 matriculation fee. This pre-admission fee will be applied toward the student's initial payment.
2. Students are required to pay a nominal health fee.
3. Students are required to have health insurance coverage at the time of admission and throughout the program.
4. Tuition and fees are paid according to the "Schedule of Payments".
5. Students are required to purchase their own nursing uniform, shoes, and graduation uniform.
6. A credit balance in a student account resulting from withdrawal, overpayment, or adjustment will be refunded. Please refer to the REFUND POLICY for more detail.
7. All fees, fines and expenses, including tuition must be paid prior to progression and prior to graduation in order to receive the Arnot Ogden School of Nursing diploma and pin.
- 8. ALL FEES, FINES, AND EXPENSES, INCLUDING TUITION MUST BE PAID PRIOR TO RELEASE OF A TRANSCRIPT.**
9. Part-time students are charged the same per credit hour rate that full time students are charged.
10. Cost of transportation to and from cooperating agencies or institutions and all personal expenses are the financial obligation of the student.
11. The cafeteria and Arnot Diner at the Arnot Ogden Medical Center are available for dining at the student's own expense.
12. If a student finds it necessary to withdraw from the program prior to completing a term or level, refunds for tuition, fees, and room charges assessed will be made according to the following schedule, less a \$100 administrative fee. This includes refund rates for Elmira College.
13. For resident students, an ala Carte meal plan is optional through Elmira College. Meals may be prepared in the residence halls.
14. Resident students are housed at Elmira College and are required to pay \$500 per year for the Student Activities Program.
15. For students living in residence at Elmira College, a \$270 non-refundable deposit is required from all incoming freshmen, enrolled students, transfer students, and/or readmitted students. This deposit will be applied toward the cost of the room.

FINANCIAL PLAN continued

The student must provide the school with written notification of withdrawal. The refund is calculated based on the date the written notification is received by the school. If they received federal grants or loans, then Financial Aid will process a refund through federal student aid return of Title IV funds on the web. A refund will be issued according to the federal calculation.

Arnot Ogden Medical Center will credit refunds in the following manner:

1. To outstanding balances on the Federal Direct Student Loans.
2. To outstanding balances on Federal Perkins Loans.
3. To Federal Pell Grant Awards.
4. To Federal Supplemental Educational Opportunity Grant (FSEOG) awards.
5. To other Title IV Student Assistance;
6. To the New York State Tuition Assistance Program (TAP) per State adjustments to TAP based on adjusted tuition charges; and
7. To the student.

The Arnot Ogden Medical Center is required to process Title IV Federal Grant or Loan refunds through the US Dept of Education's Title IV Refund Website. Any Federal refunds calculated must be returned to the proper agency within 10 days of a written withdrawal notice.

Financial Aid Policy:

- A. Requirements for Financial Aid:
 1. All accepted students are contacted and sent instructions to complete the Free Application for Federal Student Aid (FAFSA) at: www.fafsa.ed.gov. If your application is pending, you can contact the Financial Aid Officer to obtain instructions. The student is responsible for filing all required applications prior to the required deadline date.
 2. The student must apply for financial aid on an annual basis.
 3. A Federal Direct Loan Entrance Interview must be completed by all students at: www.studentloans.gov.
 4. All students are selected for verification and must submit the requested, W-2 Wage Statements and any other documents required. The information may include parent or spouse. Awards cannot be made prior to the completion of the verification process.
 5. The student must meet the academic requirements of the school, any requirements stipulated by the Title IV Federal Aid Program and/or by the individual scholarships.
- B. Procedure for Financial Aid:
 1. The student must complete a Free Application for Federal Student Aid (FAFSA). If you are a New York State resident you must also complete a NYS Tuition Assistance Program (TAP) application. The FAFSA and TAP applications can be filed online at www.fafsa.ed.gov and <https://webapps.hesc.ny.gov>
 2. The Financial Aid Officer will determine from the Institutional Student Information Report which Federal assistance that the student is eligible for.
 3. Students that are interested in a Federal Direct Loan must submit a completed Loan Request Form to the Financial Aid Office. The Electronic Master Promissory Note must be filed and signed online at www.studentloans.gov.
 4. Applicants for financial assistance will be notified in writing of their award.
 5. If student status changes for any reason the student must notify the Financial Aid Office.
- C. Student Records Policy:
 1. Maintenance, confidentiality, and access:
 - a. All records and conversations between the applicant, his/her family and the financial aid staff are confidential and entitled to the protection ordinarily given a counseling relationship.
 - b. Public announcements will not be made of award amounts to individual students.
 - c. Financial aid records will not be released without written permission of the student or the Financial Aid Officer as circumstances may dictate (Federal and State audits).
 - d. The Financial Aid Officer will determine whose permission is required in consideration of and professional ethics surrounding each request for information.
 - e. All student financial aid records will be maintained for a period of not less than five (5) years.

All requests are reviewed individually. Funding available for assistance may vary from year to year. Also, other sources of funding may be available from service clubs or through the Internet.

For an easy tutorial to process the FAFSA forms, please visit the "Seven Easy Steps to the FAFSA: A Student's Guide to the Free Application for Federal Student Aid" link located on our website www.arnothealth.org listed with the *Loans and Scholarships* information for the School of Nursing.

SCHOOL OF NURSING AUDIT POLICY

Persons seeking permission to audit nursing courses should submit a completed **Application for Auditing Courses** form to the School of Nursing clarifying the purpose (s) for auditing the requested course (s). Upon approval by the Recruitment, Admission and Progression Committee, the auditor will be required to attend all specified classes as deemed necessary by the instructor (s). The auditor may not enroll later than one week following the beginning of the course. The auditor may take examinations or participate in written assignments if deemed necessary by the instructor. The Faculty Organization will review requests for a clinical component on an individual basis. The requests should include clearly written clinical learning objectives to be met. An additional fee for the clinical experience will be assessed. References on work and professional background are required. The applicant will also be responsible to complete the criminal background check prior to the clinical experience. No student will be permitted to change from audit to credit or from credit to audit after the course has begun. The auditor will not receive a grade for the course.

The fee schedule for auditing will be **one-half** of the present cost of the courses. Books and other necessary course materials will be a separate charge.

The application may be obtained by contacting the School of Nursing Administrative Assistant.

PRACTICAL NURSE (PN) TO REGISTERED NURSE (RN) CURRICULUM

The School of Nursing at Arnot Ogden Medical Center offers the PN to RN Curriculum as a program of study developed specifically for the practical nurse desiring career advancement to a registered nurse level. This program recognizes the fact that the PN currently has competent levels of knowledge, skill and experience, and can build upon that basis.

Some specific advantages of the PN to RN Curriculum include:

- Recognition of previous knowledge and skills
- Elimination of the need to repeat previously learned concepts and skills

To be eligible for the PN to RN Curriculum applicants must:

- Meet general admission requirements, excluding high school Chemistry requirement
- Be a graduate of an accredited practical nurse program
- Have a GPA of 2.0 or above in basic practical nurse program
- Complete Orientation for Students including an introduction to the nursing process and computerized documentation
- Successful completion of the ATI TEAS exam
- Criminal background check results – to be completed by applicant within 10 days after receipt of the acceptance letter

For more information or to apply to the Arnot Ogden Medical Center School of Nursing:

Phone (607) 737-4153

Email mlyon@arnothealth.org or lmacauslan@arnothealth.org.

Visit www.arnothealth.org.

Write to: Director, Arnot Ogden Medical Center School of Nursing, 600 Roe Avenue, Elmira, NY 14905

TRANSFER POLICY

Transfer Credits

Students seeking transfer of previously earned credits for courses required by the Arnot Ogden Medical Center School of Nursing from other educational programs will be considered for advanced placement. The previously earned credits will not be computed in the grade point average. The program of study for each student with transfer credits is planned on an individual basis.

In addition to the requirements for application, the applicant must submit an official transcript from each institution attended. Each transcript is evaluated on an individual basis. Physical science courses must have been completed within ten years of enrollment. These include: Anatomy & Physiology I & II (8 credits total), Chemistry (4 credits), and Microbiology (4 credits). Other required courses will be evaluated on an individual basis. These courses include: Introductory Sociology (3 credits), Introductory Psychology (3 credits), Writing Seminar/English Composition (3 credits). Completion of Integrated Science I and II will qualify the applicant for an exemption in Chemistry and Microbiology if the final grades are a "C" or better. A course description and/or syllabus may be requested for courses for which the student is requesting transfer credit. All courses accepted for transfer must have been completed with a grade of "C" or better (C- or below is not transferable). Additional courses which may be transferred include Nutrition (2.5 credits minimum) and Developmental Psychology (2.5 credits minimum).

Credit is allowed for successfully completing the following College Level Examination Program (CLEP) exams, which are applicable to the curriculum requirements: General Psychology, College Composition, Introductory Sociology, and Human Growth and Development. Requests to use any other CLEP exams must be made in writing to the Recruitment Committee. Final grades for the exams must be received by the school before the start of the semester in which the course is offered.

R: 7/11

Transfer Students-Advanced Placement

Applicants, who meet the requirements for admission and have previously attended a school of nursing and left in good academic standing, may receive transfer credits for a nursing course(s) comparable to courses offered by the AOMC SON.

Catalog descriptions and/or outlines of courses being considered for transfer must be supplied to the faculty admission's committee. The faculty admission's committee then reviews and compares course descriptions and/or outlines of courses to ensure that courses are comparable. It is necessary for students to perform competencies prior to being eligible to transfer credits.

The transfer nursing student must complete the required competencies and a minimum of (5) five terms in order to be awarded a Diploma in nursing. Students with advanced standing may not be eligible for awards at graduation based upon the total credits awarded by the Arnot Ogden Medical Center School of Nursing.

R: 2/11; 9/14

Pre-entrance testing: ATI TEAS EXAMINATION

What is the ATI TEAS?

The **ATI TEAS exam (Test of Essential Academic Skills)** is a pre-entrance test that is a required part of our admission criteria. After you have registered with www.atitesting.com and pay the test fee on the ATI website, you will select a test date. The ATI TEAS exam is completed at the School of Nursing facility. The test takes approximately 3½ hours to complete. It is a 170-item, four-option, multiple-choice assessment and is part of the total application process. The ATI TEAS was developed to measure basic essential skills in the academic content area domains of Reading, Mathematics, Science, and English/Language usage. These entry-level skills were deemed important for nursing program applicants by a panel of nursing program curriculum experts.

How to prepare for the ATI TEAS:

Products available to purchase at www.atitesting.com to help you prepare for the TEAS Assessment:

- ATI TEAS Study Manual
- ATI TEAS Online Practice Assessments

It is **strongly advised** that you purchase and use an ATI TEAS study manual and/or practice assessments prior to completing the test.

Prior to arriving for a ATI TEAS test: you must create an ATI account for the test. Directions to create this number:

- Access the www.atitesting.com website. Click *Create New Account* and follow the screen prompts. After you have registered on the site, your personal ID will be displayed under *Account Information*. At this screen, you will have an opportunity to print the ID.
- **You should print and retain this and use it for identification on the ATI TEAS test and all future ATI tests.** This ID number will not change; each tester only needs to register once.
- Testers who forget their login information can retrieve it by using the *Forgot Password* feature
- **Please bring a printed copy of this ID number for your test date appointment at the School of Nursing.**

Frequently asked questions regarding the TEAS exam:

- [How can I best prepare for taking the ATI TEAS®?](#)

The TEAS® consists of four sections, Mathematics, Reading, Science, and English and Language Usage. A review of basic concepts and theories in each area is recommended. ATI has study products: the ATI TEAS® Study Manual and a ATI TEAS® Online Practice Assessments. All products are available to guide your review and provide feedback about your study progress.

- [If I want to purchase or rent the ATI TEAS Study Manual to review prior to the test, how do I find it?](#)

You may contact ATI directly for the purchase or you can visit a bookstore for the purchase or rental of a study guide or quick study guide.

- [Where do I take the ATI TEAS®?](#)

Students take the ATI TEAS® exam at the LD Clute Education Building/School of Nursing.

- [What is the format of the ATI TEAS®?](#)

Currently, the TEAS® includes scored multiple-choice questions divided into four subsections: Mathematics, Reading, Science, and English and Language Usage.

- [How long will it take for me to get my ATI TEAS® scores?](#)

Your examination will be scored by ATI within 24 hours of receipt. Test results may be viewed at the www.atitesting.com website after the 24 hours.

- [How do I know if I passed the ATI TEAS®?](#)

Completion of the ATI TEAS with results at a proficiency level is required for acceptance into the program.

- [If I am not successful at passing the ATI TEAS on the first attempt, will I have another opportunity to complete the exam?](#)

If the first attempt at the test is unsuccessful, applicants **may repeat** the ATI TEAS exam **one time**.

Please contact ATI at www.atitesting.com or call 800-667-7531 with any additional questions.

June 12 - 16	Freshmen: Final Exams/Evaluations

Financial Assistance Handbook

Financial Aid consists of grants, scholarships, loans and work-study programs to assist students in meeting financial obligations to enter or complete their programs at the Arnot Ogden Medical Center School of Nursing. Grants are outright gifts of money. They do not have to be repaid. Loans are borrowed monies, which must be repaid with interest. In work-study programs (through employment in the medical center based positions), you may earn funds to assist you in meeting your financial obligations. Applicants are encouraged to seek scholarships through their local high school and communities as well as competitive scholarships

Financial Aid sources may vary from year to year. Financial Aid packages are based on need which is defined by the United States Department of Education as “the difference between your educational costs- tuition, fees, room, board, books, supplies and miscellaneous expenses and the amount you and your family can be expected to pay for your education”. There are various factors used in determining need; however, basic indicators are income, assets and family size.

Important Points

1. If you are planning to apply for Financial Aid, you are responsible for the completion of the appropriate application forms. The primary form is the Free Application for Federal Student Aid (FAFSA) and is located at: www.fafsa.ed.gov.
2. You are also responsible for checking with the Financial Aid Office regarding the processing of your application.
3. Financial Aid is granted annually therefore, applications must be filed annually.
4. The monies received must be used for educational purposes only and the student is responsible for repayment of monies that cannot be reasonably attributed to these expenses.
5. Federal regulations require that the total financial assistance granted by the School in conjunction with any other sources may not exceed the total need calculated.
6. Where any question of eligibility exists, the student or applicant should contact the Financial Aid Officer at AOMC at 607-737-4405 or TMcCahill@ah.arnothealth.org
7. Any loan funds must be repaid according to the agreed upon condition of the loan.
- R: 8/10; 3/14; 7/16
8. Students receiving Federal Aid (i.e., Federal Pell Grant, Federal SEOG, and Federal Direct Student Loans) who withdraw from classes and/or resign from the program, must see the Financial Aid Officer regarding tuition refunds. All students that resign and have received any type of federal grant or loans are processed through the Return of Title IV Funds on the Web (R2T4). The USDOE calculates the amount of grant and or loan refunds due from the student or the school. The program is completed within 10 days of the student’s withdrawal. All funds are returned by the school through the Federal Return of Funds website.
9. Students who have received financial assistance during enrollment in the School of Nursing are required to have an exit interview with the Financial Aid Officer prior to graduation and also complete the required Federal Online Direct Loan Exit Counseling at www.studentloans.gov.
10. Order of Application for Financial Assistance:
 - A. Free Application for Federal Student Aid
 - B. Tuition Assistance Program – NYS TAP
 - C. Scholarships
 - D. Loans

Financial Assistance Handbook continued

Federal Regulations require that before any type of Financial Assistance may be disbursed, there must be a Federal Application for Student Financial Aid, (FAFSA) on file, and all types of income must be verified by the Financial Aid Officer at AOMC.

- II. Academic Policy – Standard for Satisfactory Progress Students are expected to maintain a grade average of 77% in each course at the completion of each semester of the program.

There is a provision for academic probation when a student has less a 77% average. A student may be placed on probation at the midterm and/or at the completion of a level that constitutes a warning that a dismissal may result for lack of improvement

All students are required to take and complete a full program each semester so as to complete the entire program in three years. A grade below 77% at the completion of a course will result in the student being dismissed from the School of Nursing.

Consumer Information

- A. The Arnot Ogden Medical Center provides free parking to all students.
- B. The Arnot Ogden Medical Center School of Nursing is a hospital-based educational program and handicapped accessible. This includes the L. D. Clute Education Building and handicapped parking.
- C. Additional costs to the student besides those explained on the financial sheet are as follows:
 - 1. Transportation to and from Elmira College for the first two years.
 - 2. It is anticipated that students might take field trips for educational purposes. While not mandatory, the students are expected to participate. The total cost of these trips normally should not exceed \$250.00.
 - 3. Additional expenses would include:
 - A. Uniforms at approximately \$90.00 each
 - B. Uniform footwear
 - C. Normal living expenses.

FINANCIAL ASSISTANCE FROM FEDERAL PROGRAMS

PROGRAM	APPLICATION PROCEDURE	ELIGIBILITY	AMOUNT OF AWARDS	RIGHTS AND RESPONSIBILITIES
Federal Pell Grant	<p>Free Application for Federal Student Aid (FAFSA) available from the Financial Aid Officer at the Arnot Ogden Medical Center, High School Guidance Counselor.</p> <p>Applications may also be filed electronically at: www.fafsa.ed.gov</p> <p>Other federal websites of interest to students are:</p> <p>www.studentloans.gov</p> <p>Renewal applications are mailed to the student every December.</p>	<ol style="list-style-type: none"> All accepted or enrolled full-time, 3/4 or 1/2 time students. PUBLIC SAFETY REPORT

The following table is the Clery Act required report for Arnot Ogden Medical Center's School of Nursing and School of Radiology, as well as campuses related to medical students and resident facilities.

This report is compiled on an annual basis (Jan. 1 – Dec. 31). It is provided to all current students and employees, and is available to any applicant for enrollment or employment upon request.

In accordance with the Security Guard Act of 1992, all Arnot Health Public Safety Officers are licensed through the New York State Division of Criminal Justice Services, Office of Public Safety. Officers respond to emergencies 24 hours a day, 7 days a week.

Under NYS General Business Law, Public Safety Officers are designated as agents of the organization and are the primary emergency responders on Arnot Ogden and Saint Joes Campuses. The Department of Public Safety works closely with local Police, Fire, and EMS to ensure a safe environment on Arnot Health properties.

CLERY ACT

Federal statute (20 USC 1092(f)) requires all colleges and universities that participate in Federal Title IV student financial aid programs to disclose campus crime statistics and security information. Compliance with the Clery Act falls under the mandate of the US Department of Education.

The Clery Act requires that Institutions must collect, classify, and count reported crimes that occur on campus and related properties, and that this information be published and distributed to students and employees. It further requires that an institution provide emergency notification when a situation that presents an immediate threat to the health and safety of students or employee is occurring on campus.

The Clery Act also requires that the campus community be informed on where to obtain information regarding sex offenders.

RECORDS COLLECTION AND RETENTION

Public Safety must keep records of crimes reported, make efforts to obtain certain crime statistics from other law enforcement agencies, and keep a daily log open for public inspection.

VIOLENCE AGAINST WOMEN ACT (VAWA)

The US Department of Education has recently amended the annual security report to include crimes that fall under VAWA. These include: domestic violence, dating violence, sexual assault and stalking.

Additionally, Public Safety will be working with the Arnot Health Education Department to establish and provide education to students and employees regarding these acts.

NOTE: Students who are either enrolled or reside at Elmira College should refer to the Elmira College Campus Security Brochure for the statistics that apply to crimes occurring on the Elmira College Campus.

		Crimes Reported											Arrests/Disciplinary Action						VAWA		
		Murder/Non-negligent Manslaughter	Negligent Manslaughter	Rape	Fondling	Incest	Statutory Rape	Robbery	Aggravated Assault	Burglary	Motor Vehicle Theft	Arson	Liquor Law Arrests	Liquor Law Referrals	Drug Arrests	Drug Referrals	Weapons Arrests	Weapons Referrals	Dating Violence	Domestic Violence	Stalking
